Charting Life’s Journey Transition Conference Registration

Minutes Man Arc
Minute Man Arc welcomes parents/guardians who have a loved one with an intellectual or developmental disability to explore critical information needed for future planning. These workshops will address the whole person and provide essential information to create a solid plan for the future.

Register on the back of this flyer by March 30th. Choice of Topic: Planning for Two Generations centers upon our Special Needs Planning Timeline™. The timeline highlights the various planning pressure points where parents should be aware of changes relating to their child’s benefits, legal and financial issues. The primary focus in this session will be planning for transition and will include a discussion of housing and creating a team to carry on when you can no longer do all you do to care for your child.

Alexandria Nadworny, CFP® and John Nadworny, CFP®, Special Needs Financial Team, Shepherd Financial Partners
